

PRESS RELEASE

ESI: CONTINUES ITS 20 MW PHOTOVOLTAIC PLAN WITH €1.5 MILLION IN FUNDING TO SUPPORT ACTIVITIES

Rome, 21st October 2025 – ESI S.p.A., an Italian company active in the renewable energy market, operating as an EPC (Engineering, Procurement and Construction) and System Integrator in Italy and abroad, listed on Euronext Growth Milan (“EGM”), a multilateral trading facility organized and managed by Borsa Italiana S.p.A. (“the Company”), announces that on 20 October it secured €1.5 million in funding to support working capital needs related to the development of a pipeline of photovoltaic plants in Italy.

The facility, disbursed by Mediocredito Centrale – Banca del Mezzogiorno S.p.A., has a total duration of 36 months and includes an initial deferral period lasting until 31 December 2025. The final repayment date is set for 31 December 2028. The facility carries a variable nominal annual interest rate, aligned with prevailing market conditions.

This transaction represents a strategic milestone for ESI’s long-term growth in the renewable energy sector and has been made possible through the support of the “SACE Growth” guarantee, which covers 70% of the total amount financed.

The Company was supported in the transaction by Dr Marcello Di Paolo, partner at PTSClas, an Italian firm specialising in strategic and operational consultancy.

Stefano Plocco, CEO of ESI S.p.A., commented:

“The financing obtained from Mediocredito Centrale – Banca del Mezzogiorno S.p.A. marks a decisive milestone in ESI’s growth strategy and validates the resilience and sustainability of our business model. This achievement represents a crucial step in the ongoing expansion of our 20 MW project pipeline and strengthens the financial community’s confidence. It also reflects the strong backing for innovative companies like ESI that are driving progress in the energy transition”.

ESI S.p.A. (Energy System Integrator) is an Italian company active in the renewable energy market, operating as an EPC (Engineering, Procurement and Construction) and System Integrator, able to oversee the entire value chain and develop turnkey solutions for complex energy projects of all sizes: from project study, to engineering, to the executive implementation of the plant, with a constant eye on financial sustainability.

ESI is active, as EPC, in the segments of photovoltaic, wind, off-grid, mini-grid (electricity supply in remote areas), and hybrid systems for the construction, in any environmental context, of large-scale photovoltaic plants and power stations (wind farms), which increasingly require sophisticated construction technologies.

As a System Integrator, ESI is able to make different BESS (Battery, Energy, Storage, and System) systems communicate with each other with the aim of creating a functional structure that fully exploits the potential of power stations, generating additional efficiencies for the entire energy system.

ESI is also the main Italian operator specialized in the revamping of large-scale traditional photovoltaic systems. The Company operates in Italy and in international markets, directly or through subsidiaries, serving public and private clients (foreign governments, investment funds and NGOs, renewable energy multinationals).
